

Asheville City School Parents!

Summer Camps at Montford North Star Academy!

Zaniac and Montford North Star Academy have partnered to bring exclusive STEM Camps to **all** Asheville City School students!

Ignite your child's imagination, gain 21st century skills and have fun with friends! Enjoy small camps and a personalized experience with role model instructors. Campers make new friends. You receive regular feedback. Camps grouped by grade ranges: 1-4 and 5-8. Summer Camp t-shirt included!

Robotics Camp: July 15-18

Dive deep into the world of Robotics and explore how Computer Programming and Robot Design can solve problems big and small. Students work on their team-building skills and STEM concepts as they complete fun challenges.

Interactive Engineering Camp: July 22-25

Use the Engineering Design Process to foster curiosity and a sense of discovery, as students figure out why and how things happen. Hands-on activities in Electrical, Mechanical and Computer Engineering bring this interactive camp to life.

Details:
