

NEW AFTER-SCHOOL
STEM PROGRAM AT
Weaverville
Elementary!

zaniac™

8-WEEK PROGRAM!

Minecraft: Architectural Design

At the invitation of Principal Mrs. Heidi Allison, Zaniac Asheville is offering its engaging technology curriculum directly to students at Weaverville Elementary School! This 8-week program begins, **Tuesday, Jan. 21** after school at Weaverville Elementary!

Students learn the basics of urban planning and building design. Explore real-world architectural landmarks through Google Maps & Street View, then take that knowledge and apply it to designing a cityscape using Minecraft™.

Minecraft Architectural Design!

- Learn about urban planning and design
- Understand architectural landmarks
- Gain STEM skills with fun, interactive activities
- Fosters a growth mindset and teamwork
- Brainstorm creative solutions and build problem-solving skills
- No prior experience necessary
