

Zaniac Jersey City is hosting its very first Kids Hackathon

What is a Kids Hackathon exactly?

It's an event where we will group children together by age and skill level, and present them with a "problem" to be solved. They will be able to utilize the resources provided to them at the Zaniac site. This can be anything from a Mac computer, to a circuit board, and even a robot or 3D Printer! At the end of the Hackathon, the kids will present their work and a winner will be selected (prize included!).

We hope these kids walk out of the Hackathon inspired and full of ideas, with a new found (or to encourage existing) excitement for STEAM programs.

We hope to empower kids to change the world... one hack at a time.

Saturday May 5th 10 a.m.-2 p.m.

Please be prompt as the kids will need the full amount of time to learn the technology and solve the problem.

Children will be grouped as follows:

**Grades
1-3**

**Grades
3-5**

**Grades
5-8**

\$20

**PIZZA & SNACKS
will be provided.
Win cool prizes!**

Call 201.360.2450 to register. Space is limited!
