# Zane Prep Tutoring at Zaniac

## Enroll in Zane Prep on Your Schedule

K-8 students enroll in Zane Prep to supplement their private or public school education 1-3 times a week. Each session is 90 minutes long and includes customized Math, Reading, and Homework Help.

## Your Student's First Day in Zane Prep

Your child's Math and Reading skills are assessed and areas for improvement are identified. Students are enrolled in individualized Zane Math and Reading programs featuring STEM subjects, tailored to fit both your family's schedule and your school's calendar. Credentials established with your child's school allow Zane Prep to monitor homework assignments and ensure they are completed.

## A Typical 90 Minute Session in Zane Prep

Students spend 30 minutes doing homework, followed by 60 minutes of Zane Math or Reading. A Daily Progress Report emailed after each session includes subjects covered for you to engage with your student about what they learned.

## Creative and Conceptual Problem Solving

At your Zaniac campus, kids also discover how much fun learning can be. Zaniac Electives like Computer Programming and Robotics allow students to use their Math and Reading skills in a way that feels like play. Electives bridge the gap between theory and practice in science, technology, engineering, arts, and math, igniting the imagination of every child.
