

December 8, 2016

I have had the pleasure of working with Neydy Gomez and the Zaniac team since the beginning of the 2015-2016 school year. Zaniac was our top choice when doing extensive research in to STEM programs in the South Florida area that we could use in tandem with our current curriculum for enrichment purposes.

Students who qualify to participate in Zaniac receive two, 40 minutes sessions, each week that focus on Zane Math, Tinkering and Introduction to Computer Programming with Scratch. This program has introduced our students to materials and programming that they would not have had the opportunity to experience without the implementation of Zaniac.

Neydy Gomez has been invaluable in allowing and facilitating the implementation of the Zaniac program at Hebrew Academy. The Zaniac instructors work seamlessly with our students throughout the day. We look forward to continuing to work together to facilitate the STEM enrichment program at Hebrew Academy.
